EXPOSITION BUREAU OF THE STATE,
Charleston, S. C., March 21.—The

estimate of the crowd on the exposition grounds yesterday as published in the State today is hardly a fact, and although it was the number generally accepted yesterday. There were considerably more than 10,000 people back and 11,000 visitors passed the correct number. The visitors enjoyed themselves until quite late at night, and the midway was the scene of one long merry camp from early morning until mid night. This day was a success for other reasons as well as succeed gress will be paired with the people who were here go back to their homes. The commissioners of the State had heard quite a number of visitors say that they had come down to see for themselves, and they are so well pleased with what they saw that they are going home to get their families and come again.

Everything indicates that the people will now begin to come to the exposition. Many have been returning to their west until April, for it is known that April is the month of the year when all business is most performed. It having been perceived that the exposure is a success in every way except in attendance, the people will have nothing to restrain them unless it should be the day of "hard times."

THE EXHIBITION IS BALANCED.

In order to encourage the people, the railroad have knocked the box cars out of the rates. At a recent meeting held yesterday a vote was recently decided to make the rates lower than at present and the existing scheme of rates is lower than ever before issued by the Charleston. No very definite arrangement may be made in regard to the new rates but the whole matter will be made public in a few days. The rates shown here—the rate from Boston will be \$6. from Atlanta \$8.50, which is cheaper than the ordinary rate from Columbia, from Saville \$8. from Columbia and Augusta \$8.50 (which is cheaper than what if one had to pay more along the route).

The aim in keeping what we can from other points so it will be seen that the railroads are determined to bring the people down. The hard way people were very much delighted when they heard of the rates being reduced so conspicuously. They say that they have never heard of such rates being offered to any other corporation.

Mr. McGurk, of the tourist of pottery, leaves today for Florida where he will work the winter months at a well equipped hotel. The tourists who are homeward bound, it is thought that they will come by Charleston in April and May. Mr. Campbell today tried to get some information in regard to President's day. He will also try to get out something in a day or two.

The crowd today is not as large as it was yesterday, but it is very good attendance. Many of the visitors in the city are taking in the sights around Charleston, but the buildings on the exposition grounds are filled with sightseers. The grounds are no exception what it would take 50,000 people to make a really grand day, as far as appears there are none.
